Great people and service! It was the first time I went to a chiropractor after struggling with my hip for years. Dr. Jeremy really knows what he is doing as just after few sessions it felt much better. I don't feel the pain anymore and other issues I had with my back are fading away as well. Thank you! Would recommend without thinking.

Ognjen Bubalo

We have found Halsa very easy to approach, professional, friendly and carer. Dr Jeremy is the best of the best, well done, keep it up I will have no hesitation in recommending them. Thank you, A Dauti.

Agron Dauti

A very warm and welcoming practice with positive and encouraging staff so it is always a pleasure to come to my appointment. Jeremy explains clearly what my treatment plan is and gives me plenty of feedback on my progress and I can feel for myself that my upper back feels more limber with less tension.
